VETERINARY SCIENCE

HIGH FLIERS UNIVERSITY OF AMERICA

Veterinary Science

The Veterinary Science program offered in High Fliers University of America is a reputable program that is academically and professionally designed to suit the needs of today's economy. Our program in Veterinary Science is taught by competent and qualified lecturers with both academic and professional qualifications.

High Fliers University of America offer programs in Veterinary Science ranging from Certificate, Associate of Science or Diploma, Bachelor's Degree, Post Graduate Diploma, Master's Degree and Doctorate Degree.

Bachelor of Veterinary Science (BVSc)

The Bachelor of Veterinary Science is an interesting undergraduate program that equips the students with the information required to succeed. The program in Veterinary Science offers interesting areas of specialization.

Students can either choose the Bachelor of Veterinary Science or Bachelor of Veterinary Science with specialization in:

*Officially Chartered by the
Government of Curacao via the
Ministry of Education of
Curacao*

VETERINARY SCIENCE

HIGH FLIERS UNIVERSITY OF AMERICA

1. Animal Nutrition
2. Livestock Products Technology
3. Veterinary Biochemistry
4. Veterinary Genetics and Breeding
5. Veterinary Parasitology
6. Veterinary Anatomy and Histology
7. Veterinary Microbiology

Postgraduate Diploma (PGD) in Veterinary Science

The Postgraduate Diploma in Veterinary Science is an interesting postgraduate program that equips the students with the information required to succeed. The program in Veterinary Science offers interesting areas of specialization.

Students can either choose the Postgraduate Diploma in Veterinary Science or Postgraduate Diploma in Veterinary Science with specialization in:

1. Animal Nutrition
2. Livestock Products Technology
3. Veterinary Biochemistry
4. Veterinary Genetics and Breeding
5. Veterinary Parasitology
6. Veterinary Anatomy and Histology

ABOUT

HFUA mission statement is Productive Knowledge kills ignorant. Knowledge is that productive power that causes productive change.

High Fliers University of America is an Independent University in Curacao that is officially authorized by the Ministry of Education of Curacao via the Charter granted to the University by the Ministry of Education of Curacao.

CONTACT

Cas Cora 105, Willemstad,
Curacao

info@hfua.org

www.hfua.org

Empowerment

Education empowers from ignorant to knowledge. Through HFUA programs our students will be empowered to be successful in their careers, professions and entrepreneurship.

Global Diversity

HFUA believes that no nation operate on an isolation. International relations do not jettison municipal cultures and diversity. Our students are trained to understand the diversity of culture and social community relations and respect cultural diversity.

MISSION

HFUA mission statement is Productive Knowledge kills ignorant. Knowledge is that productive power that causes productive change. We want to contribute our own quota to cause a productive economic change through productive knowledge that our students will acquire by enrolling in our various programs chosen by them. We philosophically believed that acquiring degrees does not change a person physical status that is it does not make the person either physical taller or shorter but it makes an internal total change by making the person reason and act in a different dimension that is academically and professionally acceptable. Our students are our testimonies and we carefully ensure that our programs are targeted toward a productive change that will lead to a rapid economic change either in their career or enterprises.
